# Contents

OCM operates a different delivery model to that of our competitors. Each practitioner is a leading expert in his or her field and has a minimum 10 years experience covering local, state, and federal government, and professional practices/private enterprises.

Our practitioners are our most valuable assets. Through harnessing their deep expertise, we form multi-disciplinary teams focused on finding solutions to the most difficult business challenges.

## OUR SERVICES

### Procurement & Supply Chain

Bringing procurement and supply chain to the next frontier of purpose, partnering and performance which goes far beyond cost reduction. OCM help clients drive and achieve value through efficiency, innovation, risk management and sustainability.

### Assurance

By aligning and harmonising assurance activities and working across different functions, delivering assurance becomes increasingly efficient and effective. The OCM team can show you how.

### Probity

As Government agencies and departments increasingly interact with the private sector, processes are becoming more complex. We work closely with organisations to enhance the design and delivery of efficient, effective and ethical procurement decision making.

### Governance, Risk & Compliance

Rapid changes in business, technology and regulatory environments result in organisations continuously challenging their governance, risk and compliance programs We work with management to develop sustainable GRC frameworks.

### WHY OCM?

- Highly experienced
- Depth and knowledge
- Proven track record
- Quality and value
- Independent

### Workplace Conduct & Risk

Understanding and managing people is one of the most pivotal, intricate and sensitive aspects of running a successful organisation. When done well, the rewards for employers, employees and other key stakeholders are tangible..

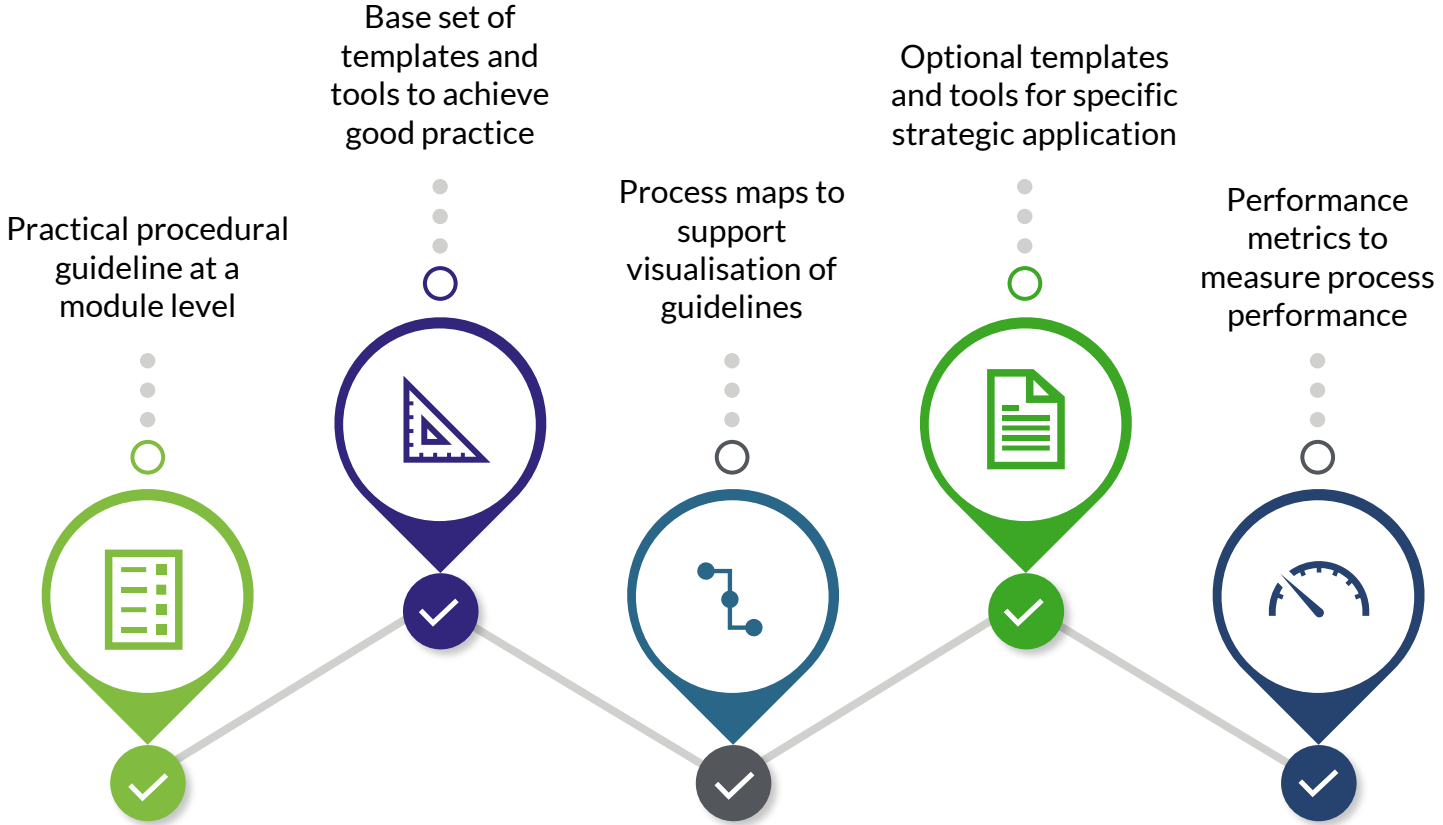

# OCM Agile Procurement & Supply Chain Framework

The OCM procurement and supply chain framework coordinates and integrates several capabilities to identify, capture and realise value.

# OCM Agile Procurement and Supply Chain Framework

# OCM procurement and supply chain expertise

## Procurement Advisory

OCM provides procurement support across all facets of the end-to-end procurement and contract lifecycle. We offer a range of services including procurement consulting, contracting, and procurement outsourcing solutions.

## Infrastructure

Infrastructure is key to a more sustainable, vibrant, and functional society. Whether we are supporting the planning, procuring, or operating/disposing of an infrastructure asset, we help clients deliver projects that best manage project risk, budget, and timeline while achieving long-term benefit.

## Transformation and Change

We partner with clients embarking on Procurement and Supply Chain transformation programs. Our services include supporting clients across all major transformation themes, including design, systemisation, cultural uplift, risk management, and structural changes.

## Commercial Advisory

Organisations today are under increased pressure to deliver improved commercial outcomes. OCM's team can lead or support you through the process of business case development, commercial model development, complex negotiations, and commercial contract management.

## Supply Chain Excellence

Being on-time and effective is no longer enough. OCM collaborates with organisations to build speed, agility, adaptability, and resilience into their supply chain design. Achieving Supply Chain Excellence involves harmonising across the four key dimensions of People, Process, Data and Technology.

## Ethical Supply Chain

Organisations, communities, families, and individuals all benefit from ethical supply chains. OCM Ethical Supply Chain Advisory services supports organisations as they seek to achieve the highest standards in relations to labour, human rights, environment, and circular economy.

## Technology

To thrive in the future, procurement need to harness technology to become more agile, improve business partnering, and data driven decisions. OCM is helping organisations implement new solutions and get best use out of existing procurement and supply chain digital tools.

## Training

Leveraging the experience of the OCM Training team, we provide a wide range of procurement and supply chain training courses and solutions.
